# **SURVIVAL GUIDE 2026**

**Why the Feed Is Dead. Why Trust Is the Only Asset.**

Micah Voraritskul | **VerifiedHuman™**

## 01. IF JEREMY CAN'T TELL, NOBODY CAN.

Jeremy Cowart—photographer to Presidents, Taylor Swift, and the Kardashians—was shown a mix of real photos and AI generations.

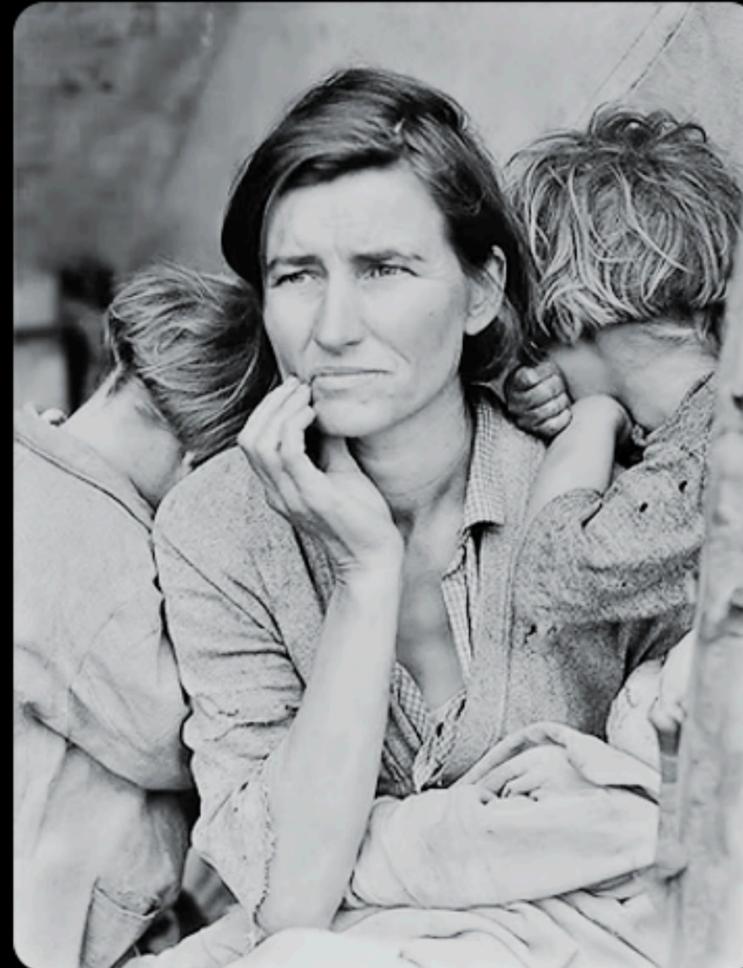

**And he couldn't tell the difference.**

**Dorothea Lange** stood in a migrant camp in 1936. **She** was there. **Florence** was there. The moment was **real**.

**Boris Eldagsen** typed a prompt in 2023. **No one** was there. **No moment** existed.

Both images are **powerful**. Only **one** tells a **true story**.

In 2026, we don't pay for the result. We pay for the source.

**REAL**

Dorothea Lange, 1936  
"Migrant Mother"  
**Time/Life classic. The two women met in California.**

**AI**

Boris Eldagsen, 2023  
"The Electrician"  
**Won Sony World Photography Award.**

## 02. THE SCRATCH IS THE PROOF.

Nowadays, perfection is free.

AI can write faster, design quicker, and scale infinitely.

*But everything feels the same.*

Humans want the scratch on the vinyl.  
To hear the breaths in the audiobook.  
And experience the story only a human can tell.

Our voice, our mess, our history.

These are the only **unhackable** proofs we have left.

## 03. THE SURVIVAL PROTOCOL

### I. PROVE THE SOURCE

If you used AI, say so. If you didn't, prove it.  
Transparency builds trust. Secrecy destroys it.

### II. SHOW THE WORK

The **result** is infinitely reproducible.  
The **struggle** to create it is not.  
**Process** is your competitive advantage.

### III. OWN THE INFRASTRUCTURE

Social platforms are **rented** land.  
**Algorithms** change. **Policies** shift.  
Move your audience to channels you control **while** they're **still** listening.

# **THE FEED IS DEAD. BUILD ACCORDINGLY.**

You have the **map**.  
Let's build the **infrastructure**.

**Book a Trust Audit**
